Dear Parents/Guardians:

The Watertown Public Schools is pleased to announce that we will begin using the Raptor Visitor Management System at the Middle School starting October 1st to increase our building's safety and security. Part of keeping students and faculty safe is accounting for all of the people in our building at all times and the Raptor system will allow us to do that with more precision. In addition, the Raptor system will better allow us to track visitors, contractors, and volunteers in our schools and provide us with a safer environment for our students and staff.

Upon entering the building, all visitors will be asked to present a valid state-issued ID, which will be scanned into the system. If you do not have an ID, our staff can manually input your information to the Raptor system to create the same safeguards. Once entered, the Raptor system will scan the visitor's name, date of birth and photo for comparison with a national database of registered sex offenders, as well as building established alerts (e.g. "no trespass" orders and custody issues). Additionally, the data gathered has a 128-bit encryption, thus creating the highest level of protection. The data does not connect with other agencies (i.e. the Department of Motor Vehicles). Therefore any other information on the ID is not scanned by the system and is not accessible to any other users. Once entry is approved, the Raptor system will issue a stick-on badge that identifies the visitor, the date, and the purpose of their visit. This badge must be worn while in the building and returned when leaving. A visitor's badge will not be necessary for those who visit our schools simply to drop off an item in the Main Office or pick up paperwork.

If you are interested in learning more about the Raptor visitor management system, please visit the Raptor Technologies website and videos listed below. If you have any questions for the district personnel, please contact your school's principal.

The safety of our students is our highest priority and the Raptor visitor management system provides us with an additional tool to safeguard our students. Therefore, all visitors to the school must be scanned into the system and obtain a visitor badge. Thank you in advance for understanding and supporting the enhancement of our school safety protocols in our district.

Sincerely,

Jason Del Porto  
Assistant Principal  
Critical Incident Team Chair
